Terms of Subscription by Mail for Daily Bonanza:  
 One Year.....\$12.00  
 Three Months.....\$3.50  
 Six Months.....\$6.00  
 One Month.....\$1.00  
 One Week.....\$.20  
 Delivered by Carrier, \$1.25 per Month.

## TO SUBSCRIBERS.

Parties who do not receive their papers, or who have any cause for complaint, will oblige The Bonanza by notifying this office.

## NO REWARD.

A reward of \$10 will be paid for information that will lead to the arrest and conviction of parties stealing The Bonanza from subscribers.

All legal advertisements will be charged for at the rate of \$2.00 per square for the first insertion. There will be no exception to this rate. No affidavit of publication will be made until the advertisement is paid for.

No advertising cut, one square inch or smaller, will be accepted unless made of metal. No wood base cuts this size will be used. Wood cuts are dangerous to forms and press.

Entered at the postoffice in Tonopah as second-class matter.

## NYE COUNTY'S ASSESSMENT

(From the Reno Gazette)

The Tonopah Bonanza does well to print in big type on its first page the fact that the assessed valuation of Nye county is \$7,238,830.18.

It is an eloquent explanation of why Nevada is growing greater every day. The figures show that the real estate, improvements and personal property of Tonopah alone are valued at \$2,139,790.05. That was to be expected, for Tonopah is one of the most prosperous communities in the United States. But it is interesting to note that camps supposed by most people to have gone the way of all flesh and boom districts are really quite well-off and are paying taxes on material values. Thus, Beatty, Round Mountain and Pioneer districts are on the assessment roll for \$370,887.63 and Rhyolite is down for \$313,915.33. Just how much of the former amount is assessed to Beatty is not shown, but it is obvious that the once busy town is not dead.

The point that should be noted in this Nye county assessment roll is that 15 years ago scarcely a dollar of income was received from the places that are now assessed for a total of many millions. Manhattan, Round Mountain and Pioneer are all producers today besides the big mines of the Tonopah district, and 15 years ago they were unknown. In 15 years Nevada has been almost re-created, so far as mining is concerned.

Besides Tonopah, Goldfield has leaped into the mining sky as a star of the first magnitude. Seven Townships and scores of smaller districts following, with Rawhide, Rochester, Willard, and new districts every month, all of which rapidly become producers. They have made the state the richest per capita in the union and there are more mines left to be found, more new districts that are sure to be discovered and which will bring the sturdy young men of the nation to us by the thousands.

## AS CLEAR AS TARVIA MUD

ON THE opposite page appears an interview with a Japanese diplomat relative to the relationship existing between China and Japan. It is well worth reading and then critically analyzing. If a considerable cash prize were to be awarded for a correct dissolution and synthesis of the statement there is little chance that the reward would be claimed.

Count Okuma is so clear in his reasoning and so distinct in his interpretation of the situation that one wonders how any complication between the nations could have existed or have been dreamed to have occurred. The battle in the Yellow sea certainly was nothing other than a naval maneuver for exhibition purposes and Korea is today as free from Japanese influence as any president since Roosevelt.

Yet one wonders what the count meant when he told how Japan is fostering China, the nation that is its best customer but always under duress per minas. His comparison between the situation there and the relationship between the United States and Mexico is another prize winner in diplomatic reasoning.

## AS TO THE DESCRIPTIVE ADJECTIVE

THE second best geologist connected with the management of any of the mines in Tonopah—this to save the face of any who might feel slighted if the gentleman in question were said to be the first, which at that he may be—takes issue with the Bonanza for terming a certain formation in Tonopah "matrix trachyte." Prof. Spurr may or may not have been the first to use this term. Let him be given that credit if he did or discredit if he did not so appellate it, but the Bonanza claims the honor of first using it in print and, with dictionary open beside the typewriter, this paper repeats that it is a rather fitting adjective.

Brother Noah clearly enunciates: "The rock or main substance in which any accidental crystal, mineral or fossil is embedded." This argument may be quoted by the state, but the defendant seeks refuge behind the less specific but more inclusive definition: "That which encloses anything or gives origin to anything."

The matrix trachyte of Tonopah district is conceded to be the most promising formation for exploration work. Its beds have been found to contain many of the strongest and richest ledges of ore. The virgin territory of even some of the most extensively developed groups in the district contain yet unexplored "matrix trachyte" beds and within them the future of the camp will be found to repose.

## CLIPPED AND CREDITED

The Italians are attacking relentlessly, and still they are up in the air.—Times-Herald.

The Haytiens are rapidly becoming civilized—they didn't eat President Guillaume.—Boston Evening Transcript.

The "German submarine" seen off the coast of Maine turns out to have been a beer keg. What's it doing off a prohibition coast?—Baltimore Sun.

Too many car drivers appear to think they bear the same relation to a pedestrian that a submarine does to a trawler.—Cleveland Plain Dealer.

Such is the power of the American imagination that the Kansas City papers print seashore resort gossip as local news.—Boston Evening Transcript.

## No Extra Charge for Fitting Trusses

At this time of the year you should begin to consider your summer comfort. You might give thought to the comfort of a well-fitting truss will give you. We have good trusses that give satisfaction in every way, and there is no extra charge for our expert fitting service. Your satisfaction and comfort will more than repay us for the extra time and attention given to our truss department. It is this service that has helped build our reputation for good trusses that fit well. Many makes and many lines.

This photograph shows United States soldiers arresting Victoriano Huerta, former president of Mexico, at El Paso, Tex., last he start a new revolution. General Orozco was also arrested, but forfeited his bail by fleeing across the border. Huerta is indicated by the X.

Judging from Mr. Justice McCarran's brief, the state constitution is in the same class with the Belgium neutrality treaty—just a scrap of paper.—Gazette.

This is the time of year when people who live anywhere go somewhere else.—Florida Times-Union.

The story that Bryan "has given up the presidency" is wrong end to; the presidency has given up Bryan many times in twenty years.—Philadelphia Press.

While we are considering this proposition of buying Belgium, why not acquire the German submarine flotilla and the general staff?—Philadelphia Evening Ledger.

## "WHEELBARROW KIDS" NEAR JOURNEY'S END

FIND THE EATS A LITTLE SHY IN THE LAND OF THE THRIFTY NATIVE SON

Sacramento, Cal., Aug. 7, 1915.

Editor Bonanza:—We are still traveling. On our way we stopped in Reno for five days. We attended the races, exhibiting our ore and wheelbarrow there. The races were very exciting and there were immense crowds there every day. We stopped in Reno with Hon. Frank Regan, supervisor of the asylum. While there we received the very best of treatment. We also had a private car at our service all the time. We met and had quite a chat with Mr. and Mrs. George Wingfield. We exhibited our ore at the Golden hotel. The great question which everyone asked was: "Where did such rich specimens come from?" We answered all inquiries, saying: "From Tonopah, Nevada, the richest silver mining camp in the world."

On Friday, July 30th, we left Reno. We started at 4:30 p. m. and reached Verdi at about 8:15 p. m., where the McDonalds, former residents of Tonopah, treated us to a fine supper. We

dropped on the road about two miles out. Next day we were treated to dinner at the Foreston hotel. That night we arrived at Truckee. We traveled on the railroad from Reno to Truckee. The scenery was very beautiful all the way. When we crossed the Nevada-California line, we shook hands and shot in the air three times each with the revolver. We slept in a moving picture show house in Truckee. Next day we made the Summit. We were given a fine supper at the Summit hotel. Next day, Monday, August 2, we made Emigrant Gap, and slept in the snowsheds. The next night we slept with two hikers from Missouri, under the pine seven miles from Colfax. Next night we slept in an old shed in Auburn. Next night, August 5th, Thursday, we slept in a sandberry patch in Roseville. We didn't know this ill morning. We had the hardest time trying to get food here that we had yet. There were so many tramps there that we didn't have much of a show. Last night, Friday, August 6, we arrived here. We are having a fine time here, stopping at the Y. M. C. A. We leave Sunday, August 8th.

This morning we received a document signed by the Nevada state officials, giving us great honor for this almost impossible feat, and certifying who we are. We were presented with a fine shepherd dog in Reno. We named him "Tonopah." He is stand-

that we or our wheelbarrow or load rode one foot of the distance to this destination, Sacramento, Cal., from Tonopah, Nev.

"WHEELBARROW KIDS."

LEAVES FOR COAST

Rev. L. H. Tracy, until recently rector of St. Mark's Episcopal church, in Tonopah, left this morning for Berkeley, where he will be married on August 15th to Miss Ida Orrett of Willows, Cal. Mr. Tracy and his bride will sail on the 17th for Honolulu, where he has accepted an important clerical position.

## JUDGE BROWN DEPARTS

Hugh H. Brown left Sunday morning for Salt Lake City to attend the annual sessions of the National Conference of Commissioners on Uniform State Laws, of which he has been a member for several years past, representing the state of Nevada. He will also attend the annual sessions of the American Bar association, to be held in Salt Lake City. Before returning to Tonopah, he plans to spend a few days at the exposition in San Francisco.

## ANNOUNCEMENT

The following prices C. O. B. Detroit, effective August 2, 1915:

Ford Runabout.....\$390.00  
 Ford Touring Car.....440.00  
 Ford Town Car.....640.00

No speedometer included in this year's equipment, otherwise cars fully equipped.

There can be no assurance given against an advance in these prices at any time. We guarantee, however, that there will be no reduction in these prices prior to August 1, 1916.

## Profit-Sharing with Retail Buyers

On August 1, 1914, we made the announcement that if we could make and sell at retail 300,000 Ford cars between Aug. 1, 1914, and Aug. 1, 1915, we would share profits with retail purchasers to the extent of from \$40 to \$50 on each car.

We have sold over 300,000 Ford cars in the time specified, and profit-sharing checks of \$50 each will be distributed as rapidly as possible after August 15, 1915. Retail purchasers who have not yet mailed us their profit-sharing coupons, properly endorsed, should do so without delay.

Our plan to profit-share with retail purchasers of Ford cars during 1914-15 has been most successful. We thoroughly believe in it, but, realizing the uncertainty of conditions generally makes it advisable to defer any announcement of future profit-sharing until a later date.

We are, however, confident of our inability to reduce costs for several months, and therefore can offer no profit-sharing for cars delivered during August, September and October, 1915.
